MEDIA RELEASE:

Clinics to promote Awareness for Condom Week

Condom awareness week this year starts on Valentine's Day, 14 February 2013. Why on the day of love? Why not promote safe sex when love is in the air. All adults, teenagers and children must become aware of what condoms can do in the long run. Condoms might aid in avoiding unwanted pregnancies, but it can also help prevent Sexually Transmitted Diseases (STD) and most of all HIV/AIDS.

Through condom awareness people are made conscious of the realities regarding practicing safe sex. By having this awareness week, the Steve Tshwete Local Municipality clinics aim to remove doubts and myths regarding everything surrounding sex.

Steve Tshwete Local Municipality clinics will for the duration of Condom Week be hosting an in-house awareness campaign, where they will do demonstrations, give information and answer any questions from the public as well as conducting some health Education.

For more inquiries, please contact Prudence Magutle at 013 249 7053 / 082 338 3821 or email p.magutle@stevetshwetelm.gov.za
