## Media release

### Resurfacing of netball courts completed at Kees Taarljaard stadium

The Physical Environment Development Department has completed resurfacing of the netball courts in Kees Taarljaard stadium that began in December 2016. This is part of the ongoing Municipal beautification programme in maintaining parks, playgrounds and heritage for future use.

The municipality urges residents to make use of these facilities as they benefit them by improving their fitness, strength, agility and also provide a good cardiovascular workout.

STLM towns and townships require that the municipality leaves a legacy for well-developed and well maintained sports areas to ensure that healthy lifestyles are maintained.

The Municipality intends to contribute towards community cohesion and social interaction by creating well developed open spaces within the residential areas e.g. parks, sidewalks and sports areas.
