MEDIA RELEASE:

BURST WATER PIPE FIXED

Over the weekend some sections of Mhluzi had no water as a result of one of the pipes that pumps water to Mhluzi had burst. This occurred on Wednesday 16 February. On Saturday 19 February the pipe was fixed, however, water pipes were still dry due to empty reservoirs which, according to the municipal Civil Engineering department take 20 hours to be filled.

On Monday night the situation returned to a state of normality as water became available from the taps. Since the water pipe burst, the municipal Fire Department supplied water to the affected areas in an attempt to ease the burden from the community.

Yours faithfully

W.D. Fouché
