## Media release

### Loadshedding continues through festive season

STLM wishes to inform residents that load shedding will continue at Eskom's discretion until further notice.

When load shedding schedules are received from Eskom the municipality will inform residents by SMS.

Load shedding has not only affected lights but also power to the pump stations, affecting the water supply.

Residents are requested to use water sparingly during this time as the pump stations cannot keep up with the demand.

Please note that load shedding is not under the control of the municipality and therefore times and lengths of power cuts may vary from the schedule.
