Long Service Awards

STLM thanks civil engineer for his long service and contributions

The Steve Tshwete Municipality will be honouring civil engineer Rudolph Bower at the municipality's Long Service Awards on Friday 05 December 2014.

Bower will receive his 40-year award for long service in the Civil Engineering Department where he is responsible for water and sanitation. He will be honoured for his loyalty and dedication during his years at the municipality and for his contribution in ensuring the high standard of clean drinking water delivered to the community. It is through the dedication of his department that has seen STLM receive the Blue and Green Drop Awards consistently since the inception of the clean water standard in 2006.

The municipality will also honour 13 employees who will receive their 30-year awards, 21 employees who have served 20 years and 32 employees who will receive their 10-year awards.

The municipality wants to encourage employees and first time recipients of the awards to continue to render loyal service, not only to their respective departments but also to the community they are serving.
