MEDIA RELEASE:

USE OF DUMPING SITE AND ACCOUNTS

The Steve Tshwete Local Municipality has been operating a manual system for the billing of waste dump at the municipal dumping site. However the municipality has encountered many problems with this system with the accounts sent to businesses.

To enable the municipality to improve the services a new software system will be implemented to control all waste dumped at the dumping site.

It is requested that all businesses that make use of the dumping site, complete a registration form that will be recorded on the system. The forms are available at the dumping site and at the municipal offices (Civic Centre), room B105, ground floor. The registration forms were also included and posted with the January 2014 statements.

Businesses are required to submit the completed forms on or before the **28 February 2014**. Those business that fail to submit these forms on time will be prohibited from utilising the municipal dumping site until registered.

Businesses that are using the prepaid coupon system must also complete a registration form.

Kindly note that this arrangement does not apply to residential consumers for private disposal, such as garden waste, building rubble and so on.

Enquiries: Prudence Magutle - Assistant Director: Communication
