

LOAD SHEDDING

Members of the public are informed of the Load shedding that is being implemented by Eskom and the schedule is made available for your ease reference. Below is an example of the load shedding schedule:

Eskom has block numbers showing different areas:

Block number: 4 – Hendrina/Kwazamokuhle

Block number: 5 – Doornkop

Block number: 11 – Middelburg Mall, Twizza and the Surroundings

Block number: 12– Middellburg/Mhluzi

NB: Load shedding is incremental, meaning if its stage 2 and your area “Z” appears on stage 1 for that particular time, your area “Z” will also be affected, so stage 2 means (stage 1 + stage 2) and so on.

		8								11		4		12		5					11			12		4				5		
23:00	01:30	1	12		4					5						11					12		4						5		11	
		2		12		4					5						11					12		4								11
		3		4		12					5							11					12		4							11
		4			4		12				5							11					12		4							11
		5		11				12			4							6						12		4						5
		6			11				12		4							5						11		4						
		7				11			4		12							5							12		4					1
		8					11		4			12						5							11
