CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This municipal bidding document (MBD) must form part of all bids¹ invited.
- 2 Section 4(1)(b)(iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38(1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - 3.1. take all reasonable steps to prevent such abuse;
 - 3.2. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - 3.3. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

C3 SCOPE OF WORKS / SPECIFICATIONS

Background to the project.

The Municipality has identified the need to develop a coherent and comprehensive strategy on the township economy. The strategy will aim to revitalise the township economy by supporting and promoting township enterprises through a realistic and implementable programme which primarily identifies strategic projects of a catalytic nature. That is, projects that will have a meaningful impact on the township economy consequently addressing the challenges of unemployment, inequalities and poverty.

Purpose of Terms of Reference

The purpose of the Terms of Reference is to specify to the Service Providers the technical requirements for execution of the TER Strategy for Steve Tshwete Municipality. The Terms of Reference specify the objectives of the project and the activities to be undertaken in the course of project implementation. In addition, the document also highlights the relevant tender requirements for the project.

PROJECT OBJECTIVES

Why the project is important?

The TER Strategy allows Municipality to promote and drive economic development in the townships where majority of the residents and micro and small enterprises are located and where they remain largely marginalised. In doing so the strategy can refocus the energies and resources of Municipality to address major barriers affecting existing and future township based enterprises, which includes spatial separation from the mainline economy, lack of productive activities, access to market, economic infrastructure, supply value chains and funding.

The intention of the Municipality to develop TER Strategy with the implementation plan will result in revitalisation of the township economy based on the principles and values of solidarity and co-operation, formalisation of township enterprises and increased productive activities.

The objective of the project is to provide a context for Steve Tshwete Municipality to build a knowledge base about a township economy as well as the social and economic value of a township enterprise to communities and markets they serve. This analysis must include the extent of entrepreneurial activities (both formal and informal) that can be defined as forming part of the township economy, including the actors involved.

More importantly having assessed the demographic dynamics of townships in Steve Tshwete Municipality, it is expected that needs of township enterprises will be clearly articulated to provide basis for strategic interventions to revitalise the township economy.

Overall Objective

The overall objective of the project is to develop a strategy that will among other things; guide key interventions in the township economy, coordinate and integrate existing projects/programmes, promote and support township enterprises, initiate strategic projects for township revitalisation, establish partnerships and empower township communities.
