2. **INTRODUCTION**

Section 229(1) of the Constitution of the Republic of South Africa empowers municipalities to levy property rates subject to national legislation.

The obligation on a council of a municipality to adopt and implement a rates policy is derived from the following legislation:

- section 2 of the act which empowers a municipality to levy a rate on property in the municipal jurisdiction;
- section 3(1) of the act to adopt a rates policy consistent with the act on the levying of rates on rateable property in the municipality;
- section 3(5) of the act to provide for exemptions, rebates or reductions in the rates policy; and
- section 62(1)(f) of the MFMA to implement a rates policy.

The rates policy of the Steve Tshwete Local Municipality sets out the framework for levying rates on rateable property which is annually reviewed and amended as per section 5 of the act.

The rates policy only rules the levying of rates of valued property which are valued according to the act and its regulations as published under Government Notice 1856 of 2005 in Government Gazette 28113 dated 13 October 2005 and does not rule or guide the processes of property valuation and approval of the valuation roll.

As part of each annual operating budget, the council is obliged to impose a rate in the rand on the market value of all rateable properties as recorded in the municipality's valuation roll or supplementary valuation roll(s).

Rateable property shall include any rights registered against such property, with the exception of a mortgage bond. Generally, all land within the Steve Tshwete Local Municipal area of jurisdiction is rateable unless it is specifically exempted as set out in section 15 of the act.

3. **OBJECTIVES**

The objectives of the policy are:

- to ensure certainty and clarity as to amounts payable in respect of property rates;
- to ensure that all owners of rateable property are informed about their liability to pay property rates;
- to ensure the promotion of efficient, economic and effective use of resources;
- to promote development and endeavour to attract investment for job creation;
- to spread the rates burden impartially, fairly, equitably and without bias;
- to create an opportunity for public participation in policy making;
- to contribute towards the accountability of the municipality;
- to contribute towards the transparency of the municipality; and
- to contribute towards the financial sustainability of the municipality.

4. **STRATEGIC FOCUS**

In determining the rates, exemptions and reductions, the council may consider the following:

- the impact of rates on the community;
- the impact of rates on businesses;
- the integrated development plan (IDP) of the municipality;
- the town development strategy and financial plan of the municipality;
- the impact of rates on the local economic development (LED) strategy of the council; and
- the effects of rates on the poor including appropriate measures in order to alleviate the rates burden on them.

5. **GUIDING PRINCIPLES**

Rates are levied in accordance with the act as a cent-in the-rand based on the property value as contained in the municipality's general valuation roll of 2018 and supplementary valuation rolls.

The municipality has chosen to differentiate between various categories of property and owners of property. Some categories of property and categories of owners are granted relief from rates.

However, no relief is granted on an individual basis other than by way of an exemption, rebate as provided for in the rates policy.

There will be no phasing-in of rates based on the new valuation roll, except as determined in section 21 of the act and in accordance with clause 13.1.6 of this policy.

The following principles will ensure that the municipality treats persons liable for rates equally:

- (a) Taxpayers with similar properties will pay similar levels of tax.
- (b) The ability of taxpayers to pay tax. However the value of a ratepayer's property is the proxy or surrogate for the ability to pay.
- (c) The circumstances for an individual ratepayer are only taken into account in respect to any exemptions, rebates or reduction that may be granted.
- (d) The application of the *equity* principle would suggest that the tax (the rate in the rand) would be the same for all ratepayers in a municipal area, unless some compelling application of other taxation principles changes in the incidence of the tax. The main reasons why one ratepayer may pay a different rate than another ratepayer are:
 - different rates levied on different categories;
 - exemptions;
 - rebates; and
 - reductions
- (e) In considering affordability, the council of the municipality will endeavour to limit the annual increase in the revenue from property rates on a year-to-year basis at the time of tabling the annual operating budget, considering the demand for services according to the approved integrated development plan (IDP) of the municipality.
- (f) In the case of poverty alleviation on the effect of rates on the poor has been taken into account in terms of the municipality's free basic services and indigent support policy.

The first R30 000,00 of the value of all residential property according to the approval of valuation roll will be exempted from the payment of assessment rates.

6. **ANNUAL REVIEW OF THE POLICY**

6.1 The rates policy will be reviewed annually in compliance with section 5(1) of the act and in accordance with section 21(1)(b)(ii)(bb) of the MFMA and be approved with the annual budget as per section 24(2)(c)(v) of the MFMA.

6.2 Community participation will take place in accordance with chapter 4 of the Local Government : Municipal Systems Act, Act 32 of 2000 and by following the processes as per sections 21A and 21B of the Municipal Systems Act, Act 32 of 2000 (as contained under section 5 of the Municipal Systems Act Amendment Act, Act 44 of 2003) as follows:

- as a document made public (section 21A):
